

CAÏPI

Technical characteristics

The Caïpi cushion, embroidered with a golden pattern, is designed for outdoor use. It is made in polyethylene terephthalate (or PET) which is a very resistant and flexible synthetic material. PET is usually made of fibres mixed with binders which offer texture and durability. It is also known to be a hypoallergenic and stain resistant material. These qualities make it a very popular material for cushions, as it is easy to clean and maintain its shape and comfort for many years.
