# Cinna

## PLAID LIMA

#### Description

Alpaca wool is a high-end natural fibre, a very high quality product, which main characterists are softness, lightness, resistance and above all an undisputed thermal insulating power. Often mistaken for a llama, the Alpaca is a South American animal. Throw in 100 % alpaca wool.

#### **Technical characteristics**

Alpaca wool is a high-end natural fibre, a very high quality product, which main characterists are softness, lightness, resistance and above all an undisputed thermal insulating power. Often mistaken for a llama, the Alpaca is a South American animal. Throw in 100 % alpaca wool.
