

VASE SMALL BLACK / BLACK TASSO

Designer

Mathieu Delacroix

Description

Vase in solid black-stained chestnut in a satin finish (interior and exterior). Water should not be used in this vase.

Technical characteristics

Tasso is a family of decorative vases which revisits the process of wood lathing. Their uniqueness springs from the fact that they are composed of solid wood blocks, partially finished by hand. Two sections are therefore made: one is sculpted, turned and finely chiselled, whilst the other is left untreated, like a raw base, bearing witness to the object's origins.
