OVAL DINING TABLE LEGS IN NATURAL OAK ENNÉA

Designer
Vincent Tordjman

Description
This table accommodates 8 diners. Legs in solid oak. 6 mm thick top in white marble-effect ceramic stoneware, glued onto 10 mm thick glass (total thickness 16 mm).

Technical characteristics
The Ennea dining table (Ennea stands for the Greek number 9) rests on a base composed of three identical 'rectangular' triangles made from solid wood. Three triangles, three sides: these nine segments form nine vectors, nine directions within the space which form an arrangement which is at once simple and sophisticated. The construction recalls the pyramidal structure of a crystal, both light and robust. Here, it is all about balance and tension, more than a static design. The assembly method is simple but gives an impression of sophistication. This table can accommodate from 6 to 10 diners.

DIMENSIONS
Height 750 mm | Width 2,400 mm | Depth 1,300 mm | Weight 142.5 kg
