Technical characteristics

Fergus references the name Fergusson, which can be found in many areas of Scotland. The name Fergus in Gaelic means angry, audacious and proud. The Ferguson clan helped popularise tartan. Tartan is a woollen with a colourful squared motif typical amongst Celtic peoples. It is formed from a pattern of criss-crossed horizontal and vertical lines in a range of colours. Tartans were originally seen only on fabric, but are now used on many other materials. Scottish kilts are thus almost always made in a tartan-patterned fabric. 100 % wool, mechanically woven. Dry cleaning only. The length of the fringes is 8 cm, giving overall length of 216 cm. Hemmed edges across the width.
