

PARI & DISPARI

Technical characteristics

Pari & Dispari est un programme de Meubles contemporain composé sur mesure en fonction de l'emplacement prévu, des usages attendus et des goûts des utilisateurs. La structure standard est définie par des éléments verticaux (montants posés au sol) unis entre eux par les éléments de jonction horizontaux type bas de meuble et tablettes (4 profondeurs - 10 hauteurs et 9 largeurs qui peuvent être recoupées). Le programme se complète de portes battantes, abattantes/relevantes ou coulissantes, tiroirs, poignées, accessoires... L'ensemble s'enrichit de + de 100 finitions (laques mats ou brillantes, placages bois, verres, pierres...) qui permettent de réaliser un meuble **UNIQUE**.
