

MATTRESS WITH POCKETED SPRINGS - FIRM (CLASSIC) 1 MATTRESS 140 X 200 MATTRESS WITH POCKETED SPRINGS

Dimensions

Height 220 mm | Width 1,400 mm | Length 2,000 mm |
Weight 29 kg

Description

For optimum adjustment to the weight of each individual body part, this mattress comprises a 19 cm high core with 7 separate zones of pocket springs offering tailor-made support. Restful sleep is guaranteed thanks to the good positioning of the spinal column. Remarkable regulation of both temperature and humidity thanks to the vertical perforations in the layers of foam. Clad in 50 kg/m³ vegetable oil-based high-resilience polyurethane foam with ticking in 65 % viscose / 35 % cotton, quilted with 500 g/m² pure new lambswool and climate fibres.

THE DIMENSIONS OF THESE MATTRESSES MAKE THEM BETTER-SUITED TO SCANDINAVIAN-STYLE SLEEPING (I.E. WITH DUVETS) RATHER THAN MORE TRADITIONAL BEDCOVERINGS.
