

MEDIUM SETTEE COMPLETE ITEM COVER

Designer

Marie C Dorner

Dimensions

Height 790 mm | Width 1,800 mm | Depth 1,100 mm |
Seat height 440 mm | Seats 2 places | Weight 61 kg

Technical characteristics

The name COVER is just as evocative of the concept as it is of the function. Its comfort and sensuality mask brazen simplicity of use : the cover of COVER can be removed in a matter of seconds, making maintenance almost a pleasure.

The cover is draped over the structure like a throw, seeming to hover over it.

CONSTRUCTION Structure of settees in high resilience Bultex foam ; footstool has a wooden carcass made from 3-layer particleboard. Black polypropylene gliders. **COMFORT** High resilience Bultex foam (36 kg/m³ - 2.7 kPa, 38 kg/m³ - 3.6 kPa). Polyether foam (28 kg/m³ - 4.8 kPa, 34 kg/m³ - 6.4 kPa). Core of settee armrests in moulded foam. Settees are

systematically supplied with a 40 x 40 cm feather-filled cushion, upholstered in the same covering material as the main cover.

This cushion is also priced separately to enable additional cushions to be ordered ; additional cushions may be made up in any fabric or leather from the collection.

MAKING-UP The medium and large Cover settees are composed of a base and a 'cover', which is draped over the base and is held in position by toggles at the rear of the seat. These items may be bi-colour and/or bi-material. Base is covered in fabric (to order) + base cloth. The stitching of the cover follows the outline of the back and armrests, creating a geometric effect which appears completely random. The stitching serves to 'quilt' the covering fabric used, whilst the upper and lower fabrics act to sandwich 300 g/m² polyester quilting. Progressive V-shaped motifs (denser towards the middle of the seat and less so at the edges). The cover may be removed easily and may be dry cleaned. Footstool : baguette stitching around the edges. Cover is quilted with 110 g/m² polyester.
