

VASE GREY BLUE LARGE T

Designer

Marie C Dorner

Dimensions

Height 320 mm | Width 220 mm | Depth 155 mm |
Weight 6.25 kg

Description

The T vase is a beautiful piece of craftsmanship made from glass which is first blown. One of the branches of the 'T' takes the vase, with the others supporting stems or branches. Vases may be interlocked to create a compact group, made yet more interesting by the fact that T is available in 3 soft, harmonious and easily associable colourways. These vases required two years of development since their original shape is achieved thanks to a complex procedure: the glass is blown onto a platform whilst the mould is rotated. This technique requires great dexterity and must be done very rapidly. Each piece is unique and all vases are signed by the designer. Vase mouth-blown tinted glass, with a frosted finish on both interior and exterior.
