

ROUND DINING TABLE BASE IN BLACK STAINED ASH ENNÉA

Designer

Vincent Tordjman

Description

This table accommodates 5 diners. Legs in solid ash. Top in 12 mm thick toughened fused glass. Its lower surface is fused in order to obtain relief effects and a translucent appearance through distortion.

Technical characteristics

The Ennea dining table (Ennea stands for the Greek number 9) rests on a base composed of three identical 'rectangular' triangles made from solid wood. Three triangles, three sides: these nine segments form nine vectors, nine directions within the space which form an arrangement which is at once simple and sophisticated. The construction recalls the pyramidal structure of a crystal, both light and robust. Here, it is all about balance and tension, more than a static design. The assembly method is simple but gives an impression of sophistication. This table can accommodate from 6 to 10 diners.

DIMENSIONS

Height 740 mm | Diameter 1,230 mm | Weight 55 kg
