## Description

WHEN PLACING YOUR ORDER PLEASE SPECIFY FINISH OF LEGS : NATURAL OAK OR BLACK-STAINED ASH. The open book motif is symmetrical across the seam. It is not perfectly aligned, since the manufacturing process involves slight lengthening of the material during firing which varies from one sheet to another.

The motif should be viewed as a whole, with a richness of colour and appearance which takes its inspiration from natural stone. This table accommodates 10 diners.

### Technical characteristics

The Ennea dining table (Ennea stands for the Greek number 9) rests on a base composed of three identical 'rectangular' triangles made from solid wood. Three triangles, three sides: these nine segments form nine vectors, nine directions within the space which form an arrangement which is at once simple and sophisticated. The construction recalls the pyramidal structure of a crystal, both light and robust. Here, it is all about balance and tension, more than a static design. The assembly method is simple but gives an impression of sophistication. This table can accommodate from 6 to 10 diners.
