motif continuous across the top and extension). The Calacatta finish has the look of veined marble, with the veining in tones of soft green and grey against an off-white background. - Top in 3 mm thick slate-effect ceramic stoneware with matching extension, bonded to a 16 mm thick MDF panel. The slate finish is inspired by the celebrated 'pierre de Savoie', with its 'roughened' irregular surface like that obtained by a traditional stone-dressing chisel. The relief effect is perceptible to the touch and makes a play with the light. The top is in one piece: just pull it at one end to unfurl one or two folding extensions concealed beneath the top and unfold them to extend the table by 75 cm (table L 150 with one extension) or even 49 cm or 98 cm (table L 200 with 1 or 2 extensions).
